CHOOSE YOUR PACKAGE. BUILD YOUR EMPIRE.

EIGHT LEVELS. ONE SYSTEM. UNLIMITED CYCLES.

Every SALARIUM package delivers powerful commissions when your 2x2 matrix fills. Start at any level and upgrade as your empire grows.

The ancient Romans built their empire one soldier at a time — your crypto empire starts today.

HOW THE 2X2 MATRIX WORKS

- Simple, repeatable structure.
- 6 positions to fill per cycle.
- Unlimited cycles.
- Teamwork accelerates the process.

Spillover is a Blessing. Movement is the Strategy.

If you want to win inside this **2x2 matrix board system**, you **cannot sit around waiting**. Too many people join a matrix board and immediately **stall**. Waiting for their sponsor. Waiting for team members. Waiting for **magic**.

Because a 2x2 matrix board only has 2 positions on the first level and 4 on the second level, **your board moves exactly as fast as you do**.

The people who win are the people who CREATE momentum.

The Biggest Threat to Your Matrix is Waiting

Waiting for your sponsor.

Waiting for team members.

Waiting for spillover.

Waiting for magic.

Synthesized Insight:

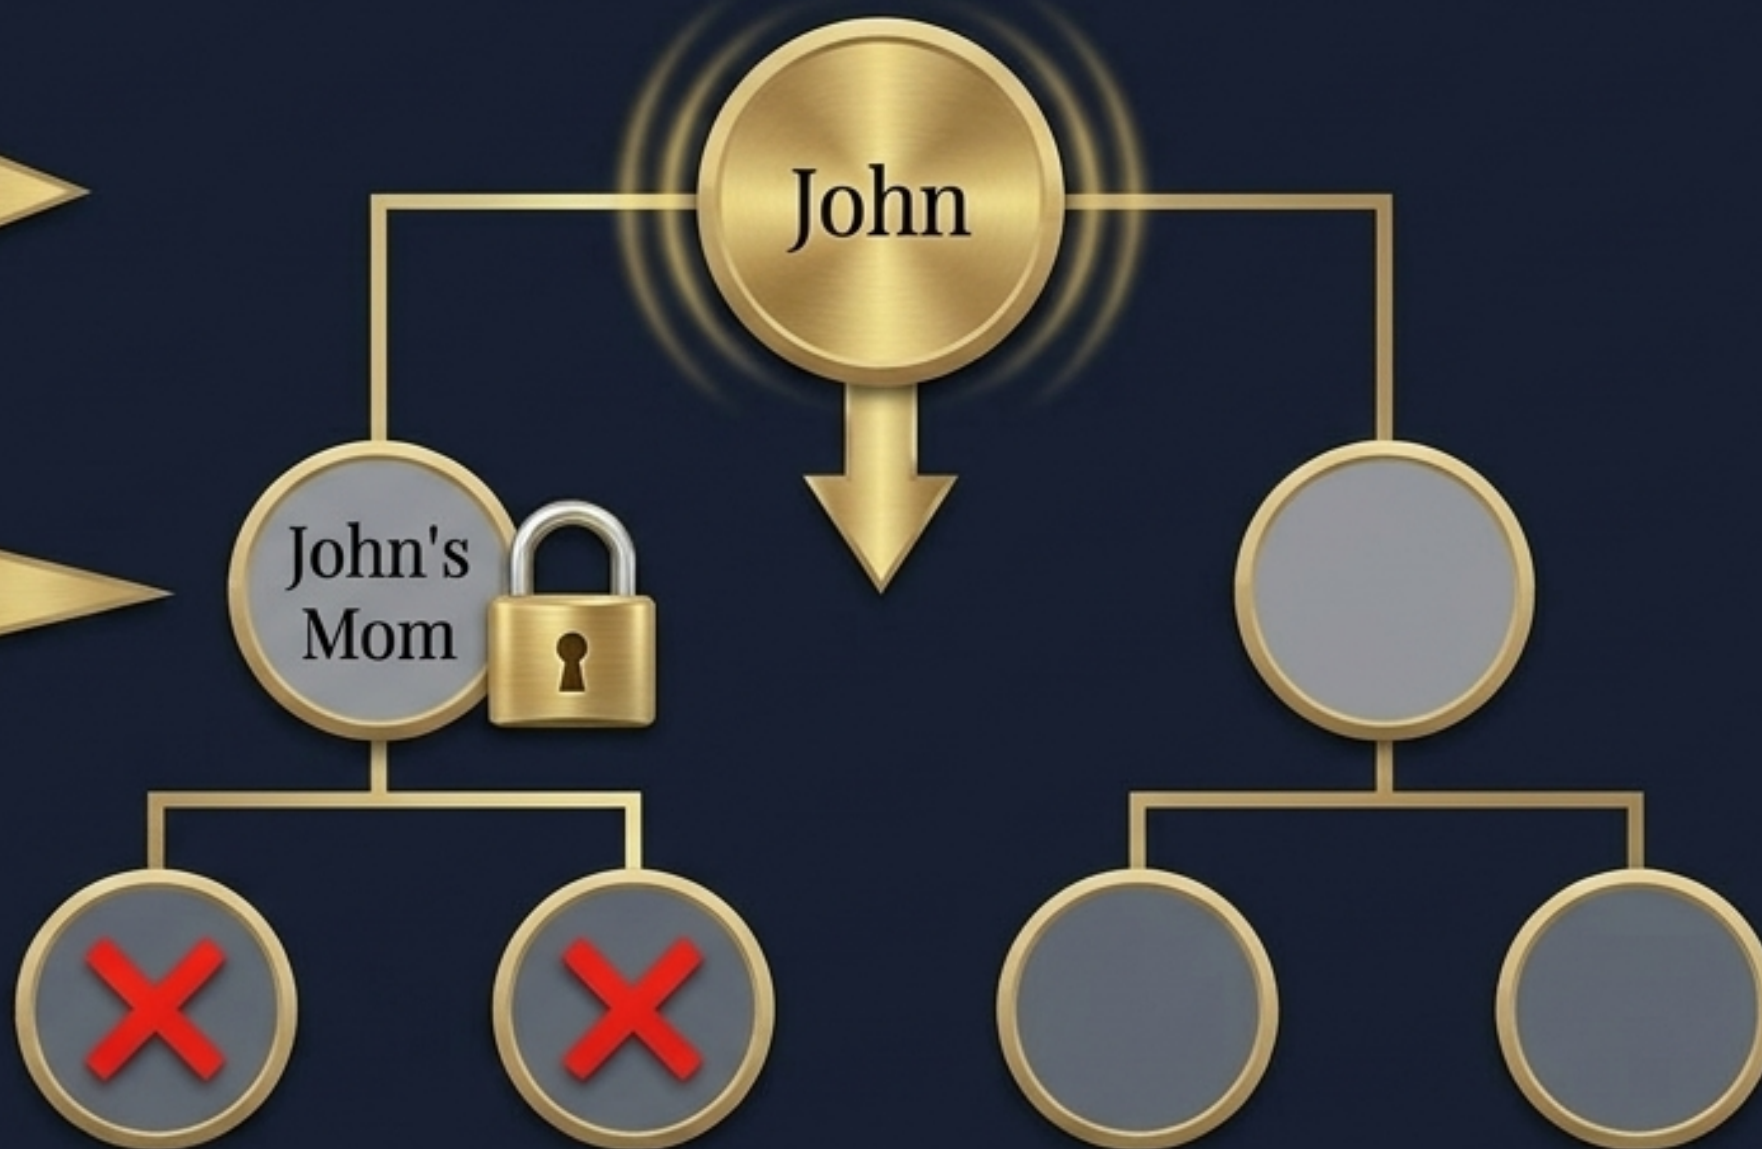

A 2x2 matrix is built for speed. It only has 2 positions on the first level and 4 on the second. It can move instantly—but only if you move instantly.

The Anatomy of a Dead Position

1. The Setup: John purchases the \$10 matrix package and starts building momentum. He places his mom in a spot just to hold a position.

2. The Bottleneck: John's mom is not a mover and shaker. She never sends messages, never posts on social media, and never hosts calls.

3. The Result: The two people underneath her are cut off from John's momentum. They are stuck waiting. The matrix slows down.

Do **NOT** build your business around waiting. Do **NOT** fill your matrix with dead positions!

The Bottleneck Trap

Level 0

Level 1

Level 2

The Illusion of Progress
John places his mom to hold a spot. Spillover flows, and she gets two people underneath her.

The Death of Momentum
John's mom is not a mover. She never sends messages, never posts on social media, and never hosts launch calls.

The Bottleneck
The two people beneath her are cut off from John's spillover. They are trapped depending on a dead position to create movement.

The Lesson
Do NOT fill your matrix boards with dead positions. You want leaders willing to create momentum.

Two Paths: Which One Are You Building?

The Spillover Waiter	The Spillover Creator
Mindset: Waits for sponsor. Waits for magic.	Mindset: Mover and Shaker. Drives independent action.
Action: Fills board with 'dead spots' to hold positions.	Action: Fills boards with leaders. Plugs into massive action.
Outcome: Matrix stalls. Dependency on others. Slow earnings.	Outcome: Matrix cycles rapidly. Instant BTC commissions. Unlimited leverage.

The highest earners don't wait for spillover. They CREATE spillover.

Two Distinct Identities. Only One Builds an Empire.

THE WAITER

1	Mindset	Hopes for a lucky placement.
2	Action Profile	Stops moving after joining. Waits for the sponsor to do the heavy lifting.
3	Matrix Strategy	Places dead positions to "hold spots", creating permanent bottlenecks.
4	Financial Reality	Stalled matrix. Missed cycles.
5	Ultimate Role	Dependent on others.

THE CREATOR

Believes activity creates activity.

Initiates all-out massive action immediately upon entry.

Only recruits movers, shakers, and leaders to drive duplication.

Matrix boards cycle repeatedly.
Earns the lion's share of BTC commissions.

The source of momentum that creates spillover for their team.

Your 7-Day Mission Directive

07:00:00

Refer your first 6 to 12 people.

Not eventually.

Not someday.

IMMEDIATELY.

If you don't hit the goal in your first 7 days... do it in your second 7 days. Or your third. Keep going until it happens. This business is about all-out massive action.

The 7-Day Massive Action Sprint

07:00:00 DAYS

TARGET: Refer your first 6 to 12 people.
TIMELINE: Immediately.

If you don't hit it in your first 7 days, do it in your second 7 days. Or your third. Keep going until it happens. This business requires absolute, all-out massive action. Your next three steps dictate your momentum.

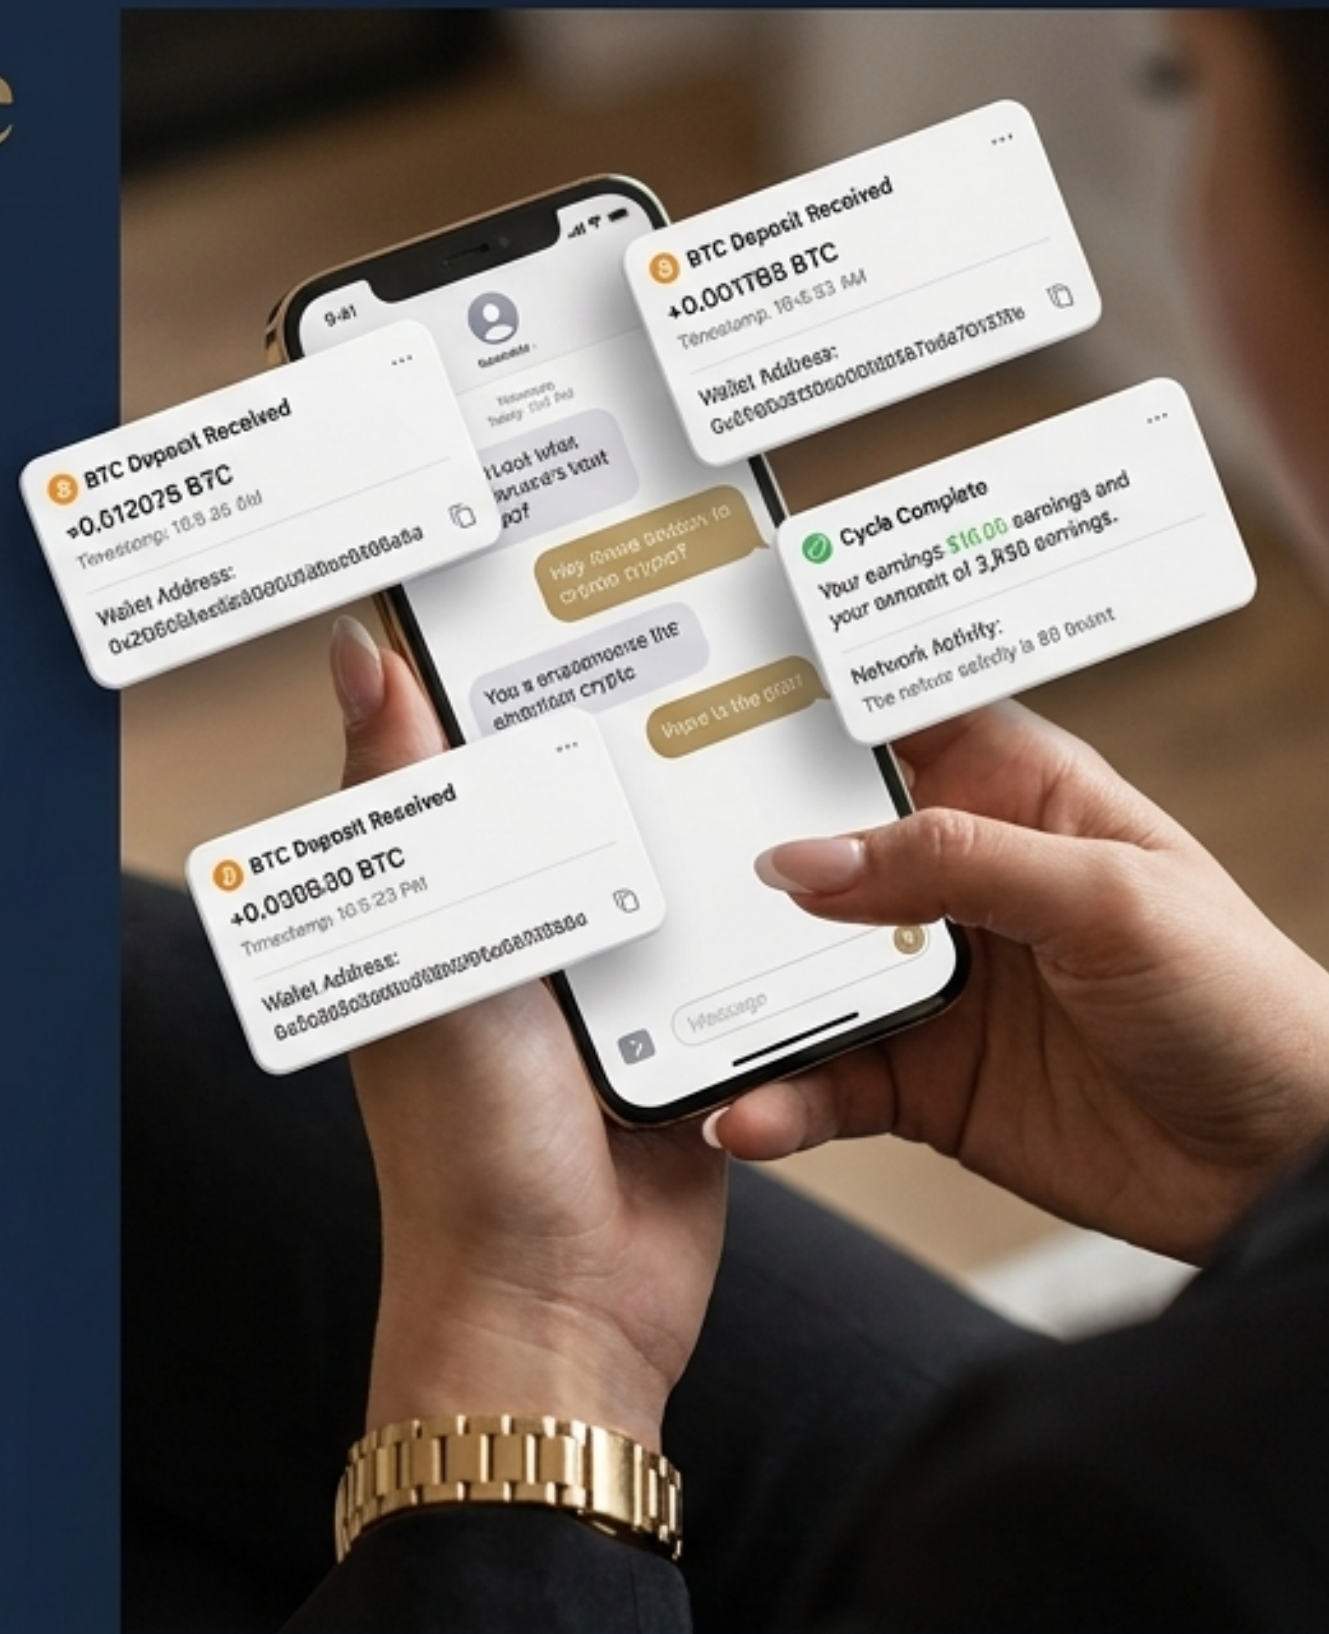

Step 1: The Text Message Strike

Go through your phone. If you've texted them, or they've texted you—they are fair game. Do not overthink it. Lay in bed with your feet up if you have to... but send the messages. Activity creates activity.

The Arsenal

Step 1: The Text Message Blitz

Go through your phone. If you've texted them before, they are fair game.

The Execution

The Asset Checklist

- | | |
|---|---|
| ✓ | Send screenshots of earnings. |
| ✓ | Send videos of Bitcoin hitting wallets. |
| ✓ | Send your referral link. |

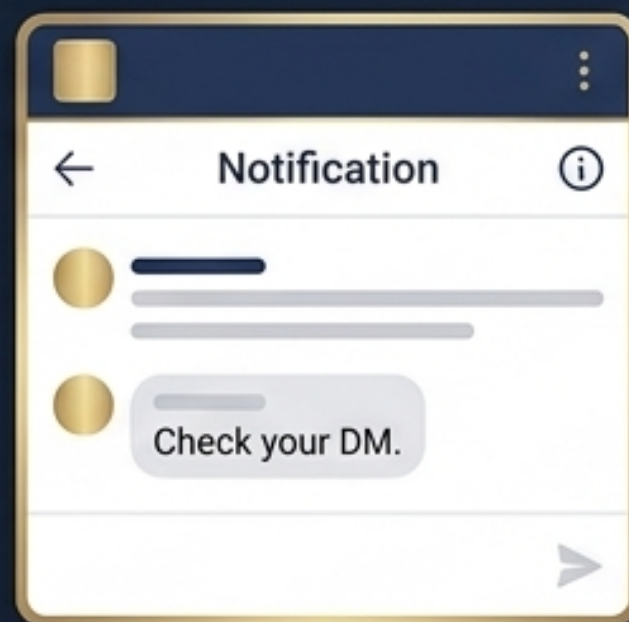

Simple. Fast. Direct. Activity creates activity.

Step 2: Scale With Social Curiosity

1. **Create the Hook:** Post simple curiosity drivers like “Comment INFO below”.

2. **Public Reply:** Every time someone comments, reply publicly: “Check your DM.”

3. **The Private DM:** Move to Messenger. Send your link, videos, and a voice message.

Why Voice Notes?: Voice messages prove you are a real person. Use this script: *“Hey! Thanks for wanting more info. I’m involved in a company with a powerful digital product and instant BTC commissions. Watch the videos, create your free account, and text me with questions.”*

Send the same message to everybody. This is not about perfection. This is about EXPOSURE.

Step 2: Social Media Domination

The Secret Weapon: The Voice Note

The Voice Note proves you are a real person.

Script: "Hey! Thanks for wanting more info. I'm involved in a company with a powerful digital product and instant BTC commissions. Watch the videos, create your free account, and text me with questions."

This is not about perfection. This is about exposure.

The Exposure Phase: Simple, Fast, Direct

Step 1: Start With Your Phone

If you've texted them before, they are fair game. Send earnings pictures, dashboard screenshots, and your referral link.

Hey! I'm involved in a project paying instant BTC into crypto wallets. Check this out. Jump on the call tonight at 8PM Eastern or text me back for info.

Step 2: Command Social Media

Post curiosity triggers. Reply publicly: "Check your DM." Follow up with a voice note proving you are a real person.

Perfect exposure beats perfect strategy.

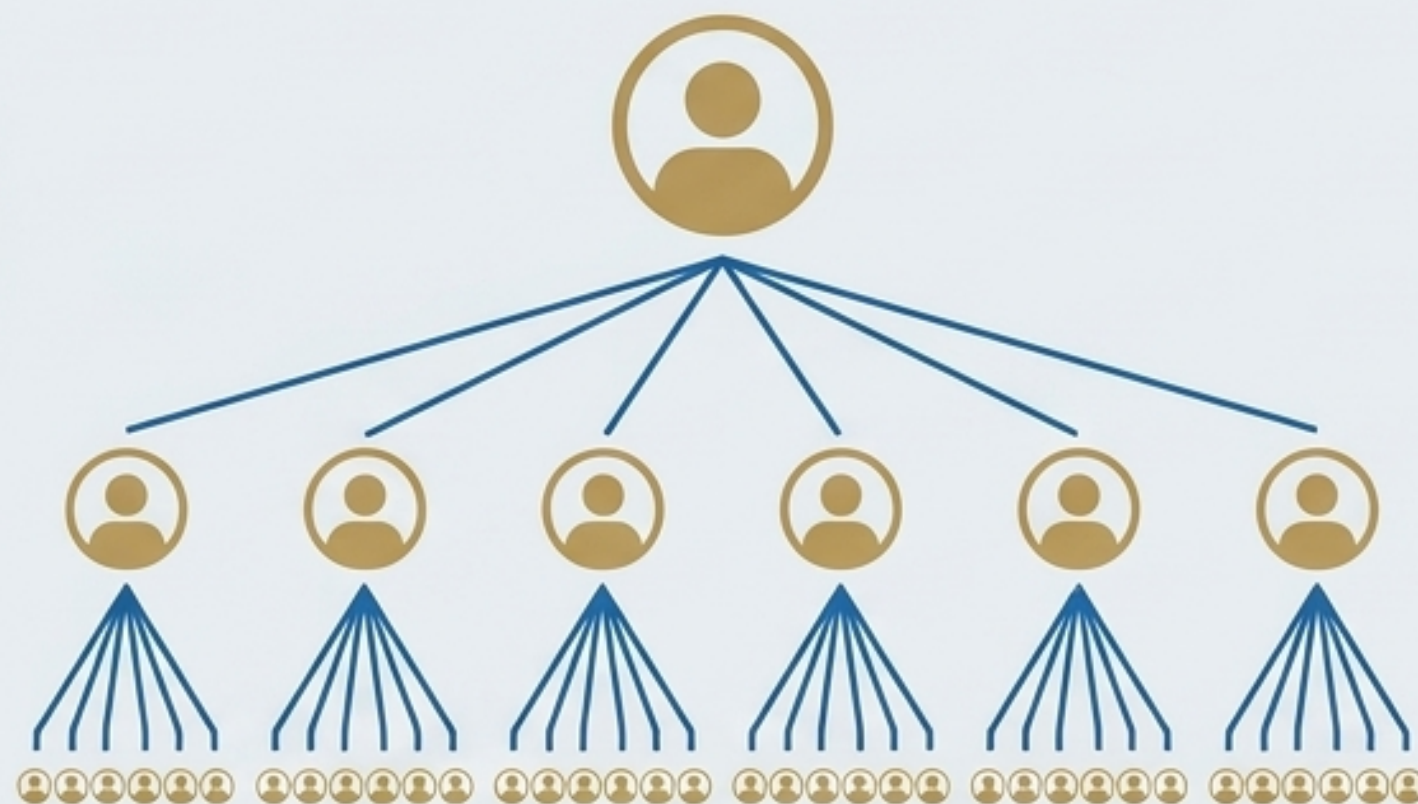

Step 3: Launch Calls & Massive Leverage

The Action

- Host Zoom calls, WhatsApp groups, Telegram chats.
- Play the videos. Explain the basics. Answer questions.
- Create excitement and urgency.

The Leverage Multiplier Diagram

1 → 6 → 36

Once YOU find your 6 to 12... teach THEM to find THEIR 6 to 12. This is duplication. That is how matrix boards cycle over and over again.

**The people who create momentum teach momentum.
Leaders teach leadership.**

Step 3: Massive Action Launch Calls

Host Zoom calls. Create WhatsApp and Telegram groups. Get people plugged in.

The Call Format:

- Play the presentation videos.
- Explain the basics.
- Answer questions.
- Create excitement and extreme urgency.

LAUNCH

“
There is no ‘perfect’ strategy. The only strategy is talking to as many people as possible until you find your movers and shakers.”

Step 3: Launch Calls & The Momentum Flywheel

The Leverage Engine

- There is no perfect strategy—only raw exposure. Talk to as many people as possible until you identify the real movers and shakers.
- Once you find your 6 to 12, teach them to execute the exact same sprint.
- The people who create momentum teach momentum. This is how matrix boards cycle over and over again.

The Engine of Duplication

The people who create momentum teach momentum.
The people who create spillover teach others how to create spillover too.

The Empire Scaling Matrix

The Math of Massive Action: You only have to build eight matrix boards through two levels to unlock incredible leverage.

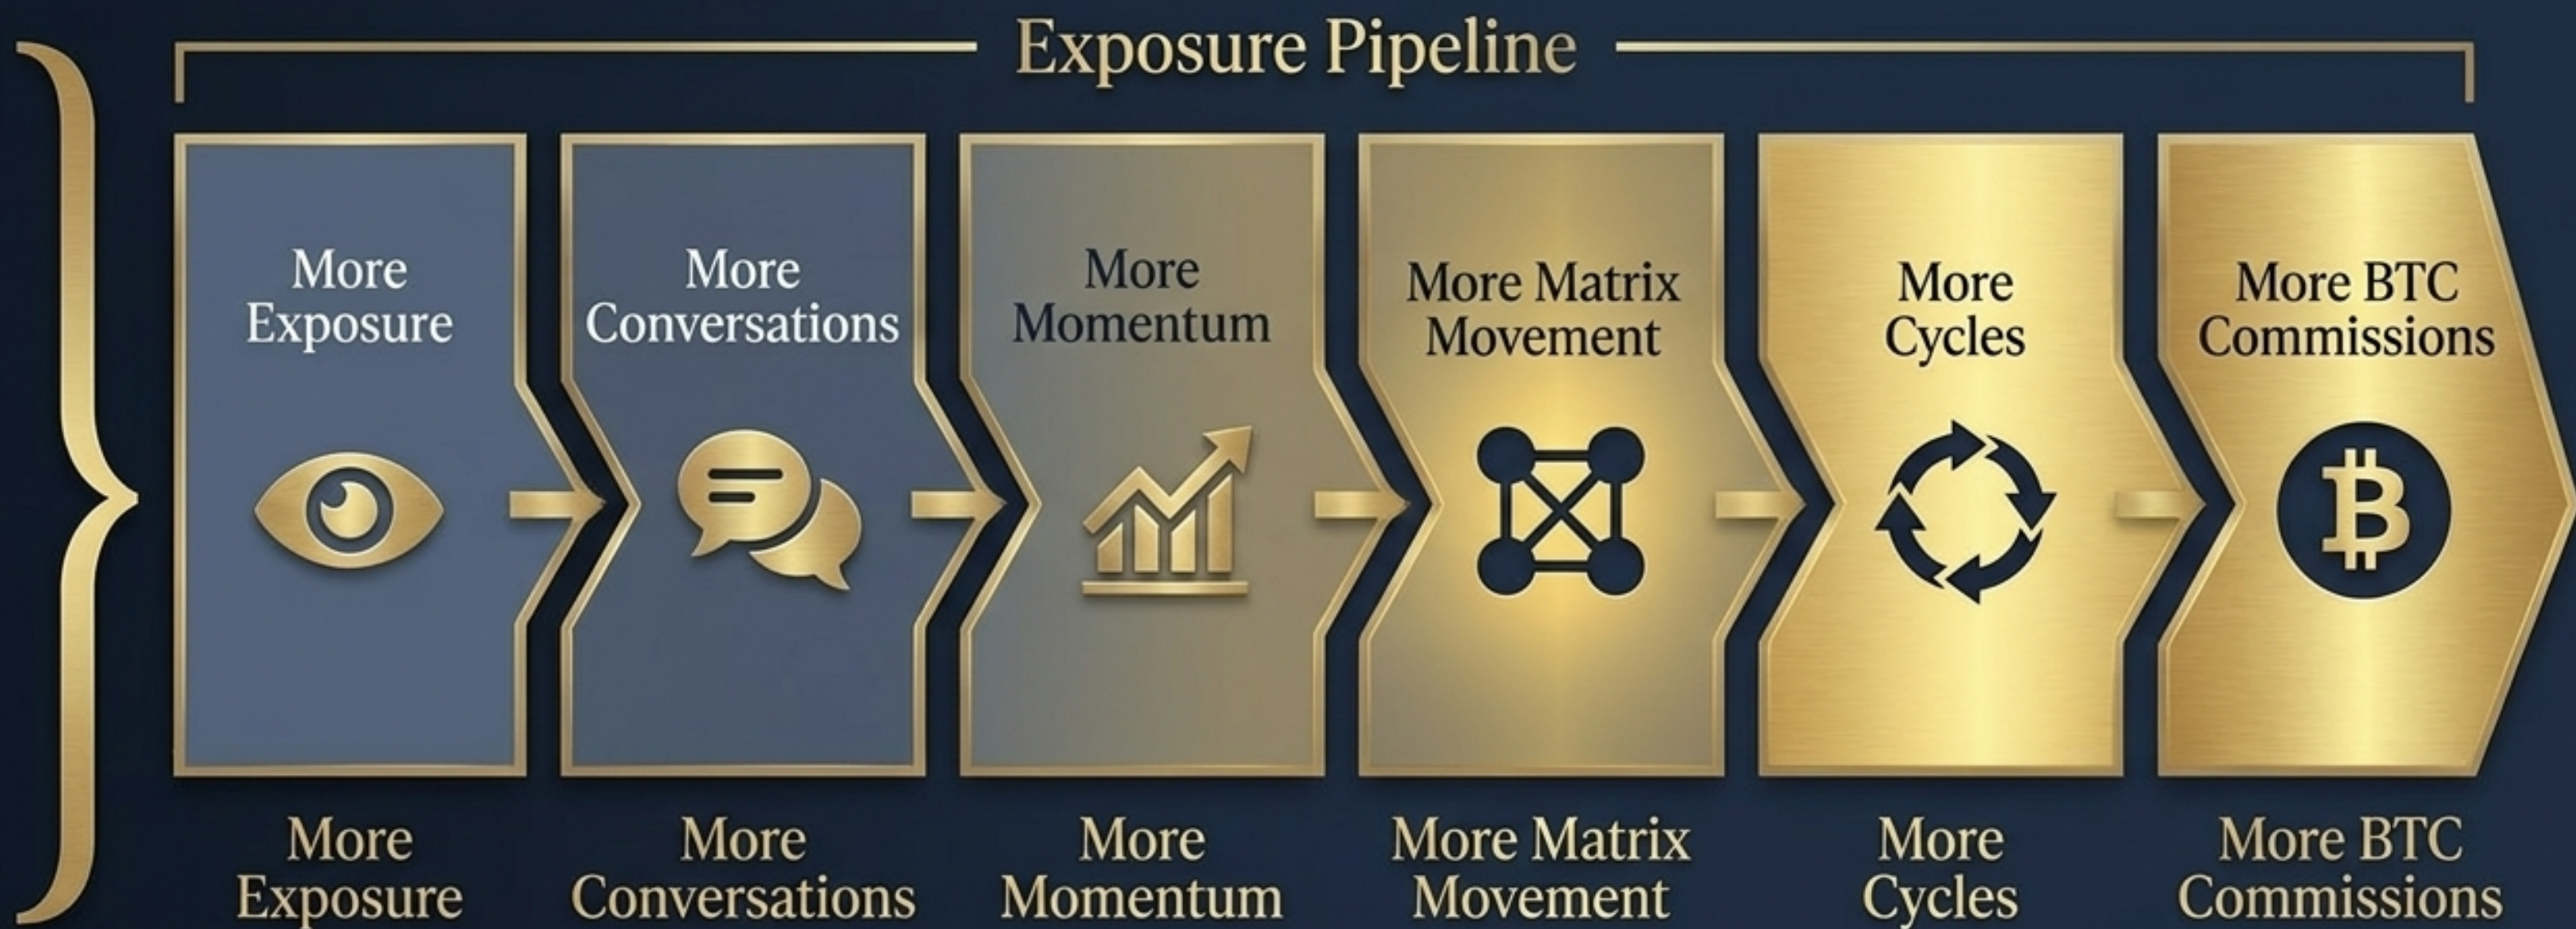

\$21,133.75

Total Commission — All 8 Matrix Cycles

How many people do you want duplicating that? Because that's how many people you should be talking to every single day.

The Law of Numbers

Momentum rewards action. This is a law of numbers business.
Take the emotion out of waiting, and put your energy into volume.

Two Futures. One Decision.

The Path of Pressure

- Vulnerable to inflation
- Dependent on a single income
- Trading time for static returns

The Path of Possibility

- Structured automated system
- Resilient digital wealth
- Leveraging a community
